

Mounting Arm Guide

ORDERING INFO

ARM	CONFIGURATION	COLOR
QM406	1A	BKTX

The QM406, 407, 408 and 409 are top mounted cast aluminum bracket welded to an aluminum tube, same as pole, capped off with a cast aluminum cap. The QM410 is top mounted arm featuring a 2 3/8" round section of bent extruded aluminum tubing. QM411 is a 2"x2" side mounted aluminum arm welded to a tube, same as pole, capped off with a cast aluminum cap with decorative curved elements. A cast aluminum fixture mounting ring is welded to the arm for pendant luminaire. The QM408, 409 and 410 have a ball joint for vertical adjustment of luminaire. All mountings are prewired for ease of installation.
